NEW! THE MONEY GAME

AGES 10 AND UP

FINANCIAL LITERACY FOR STUDENTS

The Money Game®, provides an opportunity for participants to learn how to make, manage and multiply their money wisely so they can grow up financially free. Started in California, the game is now offered in the Cleveland area to students ages 10 and up. Enroll in this exciting new class so your children can learn about money and wealth, recognize that financial freedom is their responsibility and nobody else's, that their lives are a result of the choices they make. The Money Game has students earning and handling money like they will as an adult. Children are the game's pieces, and expense bags are the props that are used for players to pay expenses from their \$1,000 paychecks as they go around the board (aka, life). Students will learn to be financially secure and manage a household. They learn to make a car payment, pay for food, pay utilities and insurance, and learn about taxes. Then, they learn about financial requirements for life events – such as a car accident – all before they have passive dollars to spend or invest.

Additional game concepts include:

- Pay yourself first.
- It's better to tell your money where to go then ask where it went.
- Assets feed you, liabilities eat you.
- Don't put all your financial eggs into one basket.
- Save early, save often.
- It's not how much money you make, it's how much you keep.
- Money is a tool to reach your dreams.

During this 2-hour program, students go through up to 12 rounds, each one representing a month.
