What is The Leader in Me?

The Leader in Me starts from a powerful premise: every child possesses unique strengths and has the ability to be a leader, which shapes the views of staff to value and develop the whole child. The process integrates leadership development into existing programs, curricula, and traditions and serves as a foundational operating system for the school, improving relationships, transforming culture, and highly motivating staff and students.

The Leader in Me helps students learn how to become self-reliant, take initiative, plan ahead, set and track goals, do their homework, prioritize their time, manage their emotions, be considerate of others, express their viewpoint persuasively, resolve conflicts, find creative solutions, value differences, and live a balanced life. In short, The Leader in Me helps students develop the skills and self-confidence they need to lead their lives and succeed in school and beyond. All stakeholders are impacted by The Leader in Me, starting with the staff of a school, then expanding to students, their families, and the community at large. This approach is a key ingredient to successfully creating positive change in a school.

The Leader in Me utilizes and integrates several leadership, social-emotional learning, quality, and educational models and processes from past and current thought leaders including The 4 Imperatives of Great Leaders and The 4 Disciplines of Execution. The process includes student participation in goal setting, data tracking, leadership roles, Student-Led Conferences, leadership environments, and Leadership Events. The 7 Habits of Highly Effective People is also a key component of the overall Leader in Me process and is a synthesis of universal, timeless principles of personal, interpersonal, and organizational effectiveness such as responsibility, vision, integrity, teamwork, collaboration, and renewal, which are common to all people and cultures.

The Leader in Me differs from other whole-school transformation processes in that it offers a holistic, school wide experience for staff, students, and parents, and creates a common, age-appropriate language and culture within the school. The leadership principles and lessons are not taught as a curriculum, but instead are incorporated into coursework, traditions, systems, and culture.

Why did Sharon Elementary School decide to implement The Leader in Me?
In the 2014-15 school year, staff members at Sharon participated in a book study about The Leader in Me by Stephen Covey. Many of the staff who participated were inspired to implement ideas from the book within their classrooms. They also suggested we read The 7 Habits of Happy Kids by Sean Covey to our students. It is a children’s book that contains short stories to teach about the 7 Habits in a child friendly way. Our Building Leadership Team then traveled to Columbus, Ohio to attend The Leader in Me Symposium.

Upon their return, the team shared their experiences at a staff meeting, which included visits at schools that are implementing The Leader in Me, national speakers such as Muriel Summers and Ron Clark, student-led presentations, and teacher-led breakout sessions. After hearing and seeing what other schools had been able to accomplish through the book study and visits, the staff at Sharon decided that they wanted our students and community to have the same opportunities. They saw the potential to further increase our success with student achievement while meeting the needs of the whole child.

Since student leadership had been a tradition at Sharon for many years, it was a great fit for our school.
